# K MESSAGE FROM THE CON CHAIR

Hi everyone! I'd like to welcome you all to Setsucon 2026! My name is Melvin Atsou-Dzini and I am a fourth year at Penn State majoring in Biochemistry & Molecular Biology and minoring in Computer Science and Microbiology. Despite already having a pretty full hand, I also play sousaphone in the Penn State Blue Band and manage the finances of Penn State's Biochemistry Society.

Anime holds a special place in my heart. It has given me the ability to experience new things, travel to new worlds, and meet lots of amazing people! I grew up watching all sorts of anime like Pokemon, Yu-Gi-Oh!, Bleach, Naruto, Inuyasha, and much much more. I feel so lucky to have gotten into it as early as I did, because without it, I wouldn't have met so many of the amazing people in my life today.

Before you go on to read about what we have planned for you this weekend, I'd like to first give my thanks to everyone who's made Setsucon possible this year. To my Executive Board and Vice Chairs, Esha, Colton, McKinley, Nate, and Mike, thank you all so much for all of the hard work and hours you've put into this convention, and thank you so very much for all of the support you've provided me through this tough year of planning, words truly cannot express the amount of gratitude I have towards you all. This team, along with all of our Directors, Coordinators, and Staff, has done an amazing job to make not only this event, but this entire year possible. I'd also like to extend my gratitude and thanks to the Blair County Convention Center for continuing to host us so graciously. Your staff's support and kindness mean a lot to us. And to our volunteers, your help and dedication keep this convention running. Thank you all for enhancing the Setsucon experience!

Lastly, I want to thank all of the guests and attendees. Without all of you Setsucon wouldn't be possible. So please, enjoy yourselves and take some time to check out all we have in store for you this year in our Manga Library and our Exhibitors' Hall, test your skill and your luck in our Video Game Tournaments, or just have a good time on the floor during our Masquerade. As far as winter events go, I really think we've hit the jackpot. If this year has taught me anything, it's that you can never be down on your luck when you're surrounded by great people. Wishing you all a great time in Your High Rolling Anime Oasis!

- Melvin Atsou Dzini, Setsucon 2026 Convention Chair

# Guests of Honor

One of the most exciting parts of any convention is the opportunity to meet the creative minds, voices, and performers who bring our favorite worlds to life. This year, we are incredibly proud to present a lineup that spans the entire spectrum of the anime and gaming industry - from legendary voices of our childhood to the modern stars of today's biggest hits, and from high-energy performers to community leaders who use their platforms for good.

Our guest list this year is a celebration of both legacy and innovation. We are honored to welcome industry veteran Megan Hollingshead, whose voice has defined iconic characters in *Pokemon* and *Yu-Gi-Oh!*, alongside the powerhouse talents of Reagan Murdock and Ryan Colt Levy, who have recently taken the world by storm in their leading roles in *Chainsaw Man*. But the magic doesn't stop at the microphone. Our performance guests, including the electrifying Antipode, the dazzling Divas Drag Troupe, and the high-octane Awesomus Prime, are here to ensure that the energy of Setsucon stays at max!

Beyond the entertainment, we are also highlighting the incredible depth of our community. We are thrilled to welcome back Karl "Uncle Yo" Custer, who bridges the gap between fandom and advocacy, cultural analyst and D&D expert Lex Winter, and entertainment creators in Glinta, WildSpice, and Pixel Pop. Whether you are attending a Q&A panel to learn the secrets of the trade, watching a breathtaking live performance, or stopping by a "save point" for a snack, our guests are here to make your Setsucon experience unforgettable. Please join us in giving them a warm welcome!

# Con Activities

Whether you are a seasoned “con-veteran” or this is your first con experience, the Con Activities section is your roadmap to the heart of Setsucon. Beyond the panels and shopping, our convention is a living, breathing community where you are encouraged to step away from the sidelines and become part of the action. This year, we have curated a diverse lineup of events designed to celebrate every facet of anime culture - from the high-octane artistry of custom cars to the quiet, meditative joy of a good book.

For those looking to immerse themselves in the creative side of the community, the Maker Space (presented by MAGFest) and the AMV Contest offer a look at the incredible technical skill of our fellow fans. If you’re looking to relax and recharge, you can find sanctuary in the Manga Library, or experience the whimsical hospitality of the Pixel Pop Maid Cafe. For the collectors and treasure hunters among us, the Friday Night Swap Meet provides unique opportunities to find that one-of-a-kind item. We are also proud to emphasize that Setsucon is about more than just entertainment; it’s about giving back, through the Jared Box Project and the Silent Auction in memory of Billy Kametz; you can help bring joy to children in hospitals and support life-saving medical research. And when the sun goes down on Friday, don’t forget to grab your kigu and head over to our Jackbox Party Night for some all-ages, high-energy laughs.

No matter where your interests lie, there is a place for you to create, play, and connect here at Setsucon!

# Cosplay Activities

## Cosplay HQ

Cosplay HQ is the central hub for all your cosplay needs throughout the weekend! Stop by to finalize your sign-ups for the Hall Cosplay Contest and the Masquerade Showcase, or to have any of your programming questions answered by our expert staff. HQ is also home to our Cosplay Repair Station, fully stocked with emergency supplies to help you fix any mid-con wardrobe malfunctions. Additionally, this room serves as the official gathering point for all scheduled meetups.

## Cosplay Meetups

Find your “found family” at our fandom-specific Cosplay Meetups! These social gatherings are designed to bring together cosplayers from the same series or genre for massive group photography sessions and networking. Whether you’re a part of a huge Genshin Impact group or a niche retro-anime squad, it’s the perfect opportunity to meet fellow fans, trade crafting secrets, and capture incredible memories with a crowd of your favorite characters.

## Cosplay Photo Suite

Preserve your convention memories with the help of the pros! The Cosplay Photo Suite, presented by our friends at The Variant, offers all attendees a chance to receive professional-grade photography for free. Featuring unique, high-quality backdrops and an expert team of photographers, this is the perfect opportunity to capture your hard work in its best light. All photos taken during the weekend will be edited and hosted on The Variant’s website for you to download and share after the con.

Cosplay is more than just wearing a costume; it is an incredible fusion of performance art, and a profound love for the characters that inspire us. Whether you have spent the last six months hand-sewing every seam, 3D-printing complex armor, or are debuting your very first cosplay, we have something here to help celebrate your creativity and the vibrant community that brings these fictional worlds to life!

Throughout the weekend you will find an event for every type of cosplay creator. The Masquerade Showcase brings the perfect marriage of cosplay and theater to the main stage, while the Hall Cosplay Contest focuses on the technical mastery of intricate builds. If you enjoy high-energy creativity, don’t miss the Iron Cosplay Challenge, where teams race the clock using mystery materials, or the Wig Styling Competition, which highlights the specialized art of transforming synthetic fibers into iconic silhouettes. And if you are looking for a unique way to end your Friday night, stop by the Cosplay Dating Game where you can find cross-universe romance and plenty of laughs. And don’t forget to check out our Cosplay Meetups & the free Cosplay Photo Suite while you make your way around the con!

## Hall Cosplay Contest

Do you live for the “build”? The Hall Cosplay Contest is your chance to step away from the stage lights and let your technical handiwork do the talking. This competition is dedicated to the art of construction, inviting attendees to present their handmade cosplays to our panel of expert judges for a deep-dive craftsmanship review. Whether it’s intricate embroidery, masterful foam fabrication, or clever engineering, we want to see the blood, sweat, and tears you put into your masterpiece. Stop by Cosplay HQ on Friday or Saturday morning to secure your judging time slot; spots are first-come, first-serve.

## Iron Cosplay Challenge

Think you have what it takes to build a costume in a high-pressure environment? The Iron Cosplay Challenge is a fast-paced battle of resourcefulness and wit. Selected contestants will be presented with a “Mystery Box” of unconventional materials—think cardboard, duct tape, tinsel, and more—and tasked with creating a unique cosplay on the fly. You’ll have to collaborate with your team and race against the clock to impress our judges with your ability to turn “trash into treasure.” Contestants are selected directly from the audience just prior to the event, so arrive early and bring your A-game!

## Masquerade Showcase

The “Crown Jewel” cosplay event! The Masquerade Showcase is our premier stage event, where the worlds of anime and gaming come to life through music, dance, and theater. This is more than a cosplay contest; it is a celebration of performance, featuring everything from high-energy idol dances and choreographed fight scenes to emotional dramatic monologues. Whether you’re cheering from the audience or performing under the spotlights, the Masquerade is a must-see celebration of the passion that defines our community.

## Wig Styling Competition

Witness the ultimate styling gauntlet! In the Wig Styling Competition, participants (selected from the audience!) are given 60 minutes to transform a pre-selected base wig into a gravity-defying work of art - all while doing this live in front of our attendee audience. Using the tools provided (and any that you bring along), stylists must demonstrate precision, creativity, and wearability under a strict time limit. Our judges will be scoring based on the complexity of the style, the cleanliness of the finish, and the overall “wow factor.” Come watch these artists turn a synthetic bird’s nest into a masterpiece worthy of any protagonist!

## Cosplay Dating Game [18+]

Are you ready to see if your favorite characters can find their “Happily Ever After”... or at least someone to grab dinner with? The Cosplay Dating Game is a hilarious, improvised look at cross-universe romance. Watch as iconic heroes and villains answer spicy questions and navigate awkward “first date” scenarios to see who will walk away with a match. This is an interactive, high-energy event where the audience and the characters create the fun!

## COSPLAY JUDGES

You can find her in the form of a silly gaming goose on the internet swimming around on Twitch.

# AMV Events

Prepare to witness the ultimate fusion of music and animation at the AMV Contest! This event showcases the incredible technical skill and creative vision of editors from across the globe. Whether you are a fan of pulse-pounding action, heart-wrenching drama, or side splitting comedy, this high energy screening event offers a curated look at the very best the community has to offer.

An AMV is more than just clips set to music; it is a transformative work of art where editors carefully synchronize rhythm, color, and narrative to tell a completely new story. Here, you'll feel the beat of the bass set to an intense battle sequence, or the collective intake of breath from the audience during an emotional climax as the music sucks your feelings into the piece. The contest spans a wide range of genres, including action, comedy & parody, dance & upbeat, drama & serious, and romantic & sentimental.

Make sure to check out both the AMV Contest on Saturday and the AMV Overflow event on Friday (or during Sunday Awards) to have a chance to see all of the videos that talented creators from around the world submitted to the contest.

## AMV Contest

What makes the AMV Contest truly special is that you are the judge! Every attendee in the audience has the opportunity to vote for their favorites in each category and the all around Best In Show winner! If you are looking to judge the complete contest, make sure to arrive early to grab your seat, stick around for all videos (from start to finish), and take notes during the event to make sure you remember everything that happened. Reminder - you must be there for the entire category in order to vote for a category winner, and must be there for the entire contest to vote for a Best In Show winner.

While judging, it is good to look at the contest through a technical lense, looking at the synchronization of the video and audio (look for movement in the video that lands exactly on beat, ask yourself if the cuts match the energy of the song), the creative storytelling and concept (does the narrative pull you in to the atmosphere that the editor intended), category specific excellence (how well does the video fit the theme of the category), and your own personal enjoyment of the AMV (did it give that wow factor that will make you want to watch it again and again).

Curious to see some of the videos that won in the past? Check out our website for a full list of past Setsucon AMV Contest winners, and check out below for the winners from the 2025 contest.

# Itasha Car Show

17

The Itasha Car Show is one of the con's most visually striking attractions, transforming our corner of the Exhibitors Hall into a high-octane gallery of speed and style. Presented in partnership with Isekai'd Dreams, this showcase bridges the gap between automotive engineering and Japanese pop culture, featuring vehicles that have been meticulously transformed into moving tributes to anime, manga, and video games.

Whether you are a dedicated car geek or just a fan of amazing designs, the Itasha Car Show offers something for everyone. It is a rare opportunity to see the level of craftsmanship required to transform a car from an everyday drive into a magnificent canvas. See everything from sleek JDM legends to modern sportscars, all sporting vibrant wraps or detailed replications - looking like they'd fit right in within the world of Initial D. Get a chance to meet the owners of these vehicles - all who love to discuss their builds, the wrapping process, and the inspiration behind their designs.

The history of Itasha is a testament to the passion of the anime community and its desire to bring that into the car world. It began in the late 1980s and early 90s in Japan, particularly in the tech and anime hubs like Akihabara. Early enthusiasts would use small stickers and modest decals to signal their love for a particular series to fellow fans - it was a secret handshake of sorts, a way to make a car feel like a personal sanctuary for their passion.

As anime culture exploded globally in the 2000s, so did the ambition of Itasha owners. The rise of high-quality vinyl printing allowed fans to move beyond small stickers to full wraps - turning entire vehicles into high-definition tributes. This era saw the subculture shift from a niche hobby into a mainstream artistic movement. In Japan, events like Ita G Festa began drawing thousands of participants while professional racing teams began sporting liveries featuring characters like Hatsune Miku.

In the US, Itasha culture has become a cornerstone of the otaku lifestyle, representing a bridge between the automotive community and the anime world. For many owners, their vehicle is a labor of love that honors the stories and characters that have inspired them. It transforms the act of driving into a rolling celebration of medium, fostering a unique sense of camaraderie among fans who recognize a familiar character on the highway. Today, the Itasha movement stands as one of the most visible and impressive displays of fandom, where every curve of the car serves as a canvas for the art that defines our culture.

# Manga Library

21

Finding a quiet moment in the middle of a bustling convention can be a challenge, but the Penn State Anime Organization Laura Rayman Memorial Manga Library offers the perfect sanctuary for bibliophiles and casual readers alike. This massive, curated collection is brought to you through over 25 years of manga collecting by the Penn State Anime Organization (PSAO). Whether you're looking to catch up on the latest hit series or discover a hidden gem from decades past, the library serves as a peaceful retreat where the only thing on your schedule is "just one more chapter."

The library is more than just a collection of books; it is a living tribute to the heart of the Central Pennsylvania anime & manga community. Formally renamed in 2016 in memory of Laura Rayman, a cherished long-time Setsucon attendee and manga library enthusiast, the collection represents the collective passion of the PSAO members. This mostly donation-based library has grown year after year, fueled by the generosity of fans who want to share the stories they love with others. Today, the collection boasts an incredible selection of over 600 titles and more than 2,500 individual volumes, ranging from the "Big Three" shonen staples to niche indie titles and classic shojo.

In the high-energy environment of Setsucon, the Manga Library serves as an essential "recharge station." It is a place where the sounds of the con floor fade away, replaced by the soft turning of pages. Explore new worlds with the thousands of volumes at your fingertips, relax and unwind in a library that provides a comfortable, low-stimulation environment to sit down, rest your feet, and enjoy the medium that started it all, and connect with a new title, be it taking a walk through manga history or finding a new hit book.

To ensure that the volumes remain in pristine condition for future generations of Setsucon attendees and Penn State students & alumni alike, we ask that you follow a few simple rules:

- **Let Us Take Care of Your Badge:** in exchange for reading in the library, please make sure to leave your badge with our library staffer at the front table; don't worry, you'll get it back once you return all of your books and are done reading.
- **Handle with Care:** please treat every volume as if it were your own. Please take care not to leave any marks, bends, or tears in the pages.
- **No Food or Drink:** to protect the volumes from spills and stains, please enjoy your snacks and beverages outside the library.
- **Return to the Shelves:** when you are finished with a volume, please return it to its designated spot or give it to a library staffer so that it can be ready for the next reader.

The PSAO library continues to grow thanks to generous donations from the community. If you have gently used manga that needs a new home where it will be loved and read, please speak with a library staffer about how to contribute to this collection.

# Swap Meet

Turn your old favorites into new treasures at the Swap Meet! Held on Friday night, this event is a must stop by gathering for collectors, gamers, and fans who are looking to refresh the shelves. Whether you have outgrown a particular series, have extra doubles of a gashapon figure, or just want to find a unique item that can't be bought in stores, the Swap Meet is the place to be for the ultimate bartering experience.

The Swap Meet is a "moneyless" exchange zone, focusing entirely on item-for-item exchanges. This creates a unique community atmosphere where the value of an item isn't determined by a price tag, but by the shared passion between two fans. It's a fantastic way to meet fellow attendees, talk about your favorite series, or walk away with something special without ever opening your wallet. From vintage manga and rare trading cards to plushies and video games, you never know what "holy grail" might be sitting on the next table.

Space is available on a first-come, first-served basis for tables, so we recommend arriving early if you have a larger collection to trade, or bring your own table to set up.

To ensure a safe and fun environment for everyone, all participants must adhere to the following rules:

- **Badges & Age:** all swappers must have a valid Setsucon 2026 badge and the primary swapper at any station must be at least 16 years of age.
- **No Cash Exchanges:** no currency exchanges are allowed.
- **Be Respectful:** if a trade doesn't feel right for either party, it's okay to politely decline and move on.
- **Item Condition:** please only bring items in good condition; while older items with some wear are acceptable, please avoid bringing anything with significant rips, stains, or damage.
- **Respect the Space:** no outside shelving or racks are allowed and all items must fit within your space; please limit your area to at-most one rectangular table (either ones we provide or ones that you bring) or one-half of a circular table.
- **Finality:** all exchanges must be completed within the Swap Meet area during the event area; no exchanges in a different place or time are allowed.
- **Prohibited Items:** to maintain a family-friendly and safe environment, the following items are not allowed to be exchanged.
  - Bootlegs or unlicensed reproductions.
  - Weaponry of any kind (including metal props).
  - 18+ or adult-themed merchandise.
  - Food, snacks, beverages, or contact lenses.
  - Personally created artwork or commissions.

# Jared Box Project

## Donate Toys and Gifts

Be a part of brightening the day of a child in need by participating in the Jared Box Project. This heart-warming initiative focuses on delivering the "gift of play" to young patients in emergency rooms, hospitals, and surgical centers. Originally founded in 2001 in State College, PA, the project honors the memory of Jared, a brave young boy whose courage during his battle with cancer inspired a movement that has now reached every corner of the country.

The mission of a Jared Box is simple: to provide a distraction from the stresses of medical treatment through the joy of toys and games. Since its inception, the project has grown from a local effort into a national phenomenon, with over one million Jared Boxes delivered to more than 400 hospitals across the United States. Each box is a small, plastic shoebox filled with carefully selected items, such as crayons, card games, and small toys - tailored to a specific age group and gender. For a child facing a scary medical procedure, opening a Jared Box is a moment of pure magic that reminds them they are not alone.

If you would like to contribute physical items, we will be hosting a toy collection at the Jared Box table in the Exhibitors Hall. We are looking for new items that are small enough to fit inside a shoebox. A full list of suggested items are available on the Jared Box Project website, and include: rattles, stacking blocks, board books, bath toys, and soft plushies for infants/toddlers; action figures, small dolls, stickers, coloring books, crayons, and puzzles for children; and journals, fun socks, travel games, card games, craft kits, and reading books for teens. To ensure the safety of the patients, we cannot accept the following: used items, food or drinks, glass or fragile items, holiday-themed merchandise, choking hazards, bubbles, or pencil sharpeners.

## Decorate a Box

You don't need to be a donor to make a difference! We invite all attendees to stop by the Maker Space to help us add a personal touch to our collection. Decorate a box top to turn a plain container into a vibrant, cheering treasure chest using stickers and art supplies.

## Card Creating

Sometimes a kind word is the best gift of all. Sit down for a few minutes to write a message of encouragement or draw a picture for a child to find when they open their box. You can drop off the cards at the Jared Box booth.

# Silent Auction

25

The Setsucon Silent Auction returns for its eighth year, continuing a proud tradition of combining fandom with philanthropy. Located in the Exhibitors Hall, the auction is a premier destination for attendees looking to acquire rare collectables, autographed memorabilia, and unique anime treasures. More than just a place to bid, this event serves as a centerpiece of our community's charitable efforts, bringing fans together to support a vital cause.

Our Silent Auction is held in loving memory of the late Billy Kametz, a beloved voice actor, former Setsucon guest, and a Pennsylvania native. Known for his incredible talent and infectious kindness, Billy left an indelible mark on the anime industry and the fans who knew him. In honor of his legacy, all proceeds from the auction are donated directly to the Colon Cancer Coalition. This organization works tirelessly to raise awareness about the importance of screenings and colonoscopies, aiming to decrease deaths from colon cancer through education and support. By participating in the auction, you aren't just winning a prize; you are contributing to a mission that saves lives and honors an incredible man.

Bidding is easy and open to all attendees, but the competition can get fierce as the clock winds down! Whether you are eyeing a rare figure or a one-of-a-kind industry item, here is how you can get involved.

- Visit the Silent Auction booth starting Saturday morning; simply write your name, phone number, and bid amount on the item's bidding sheet.
- Keep your eye on your favorite items throughout the weekend; if you've been outbid, you can jump back into the fray - just remember that every new bid must increase the amount by at least \$5.
- If you are the highest bidder when the auction closes on Sunday, you'll be contacted to come and claim your prize (you don't have to be at the con on Sunday to claim the prize - just have to have a way to get it either that day or in the days following).
- All winners will be notified by phone call or text; after three missed attempts to contact the winner, we will move on to the next highest bidder.
- All items must be won via bidding; no buying is allowed.
- Staff have the discretion to halt bidding at any time for any reason.

# Panels Guide

Our panel rooms are where our community truly comes together to share knowledge, debate theories, and celebrate the niche corners of fandom that we love. From deep-dive academic lectures on Japanese history to high-energy late-night game shows, our programming schedule is designed to ensure that every hour of your weekend is packed with discovery.

To help you navigate the hundreds of hours of available programming, we have organized our content into specialized “tracks.” No matter your interest, there is a topic designed specifically for you. And with panels running simultaneously across multiple rooms, planning is key! We recommend planning ahead for your “must-see” panels by checking out the guide on the following pages.

Whether you are here to learn how to manage a career in content creation with WildSpice, explore the “yaoi-fication” of mainstream media, or simply find out why your favorite character is (according to our staffers) actually “trash,” there is a seat waiting for you. If you’re feeling competitive, our Game Show track offers everything from Anime Bingo and Shonen Trivia to the return of Wheel of Fortune – they are your chance to take the stage, win amazing prizes, and prove your status as an “Animexpert.” For those who prefer a deeper, more contemplative experience, our Educational and Culture tracks offer a “university-style” look at fandom. Learn about the real-world biology that inspired your favorite Pokémon from a researcher, or explore the intersection of 1960s jazz and coming-of-age stories. Even local culture gets its moment in the spotlight – yes, we are finally talking about the wonder of Altoona Pizza!

# Viewings Guide

Take a front-row seat to the best the industry has to offer in the Viewings Room. Whether you're looking to catch the season's hottest new premiere or want to revisit a certified classic, the Viewings Room provides a cinematic escape right in the middle of the convention. It is a dedicated space where the only thing on the agenda is to sit back, relax, and immerse yourself in art of anime.

While streaming at home is convenient, nothing beats the energy of a theater-style experience. In the Viewings Room, we bring high-definition visuals and booming sound to our curated selection of series and movies. It's a rare opportunity to see every detail of a high-octane battle or every stroke of a beautiful background as the creators intended. Our schedule is carefully balanced to offer a little bit of everything: from the pulse-pounding action of modern shonen and the whimsical charm of slice-of-life to the deep narratives of psychological thrillers and the nostalgic warmth of retro gems.

The true magic of the Viewings Room isn't just the screen—it's the audience. There is a unique thrill in laughing together at a comedy, gasping at a sudden plot twist, or cheering alongside a room full of fellow fans during a climactic transformation. This is the ultimate social-viewing experience, allowing you to bond with other attendees over shared excitement. It's also the perfect place for series discovery; many fans walk in for a single episode of a show they've never heard of and walk out with a brand-new favorite to add to their watchlist.

## ABOUT SETSUCON

Setsucon is a 3-day anime convention held annually at the Blair County Convention Center in Altoona, Pennsylvania. Run by the Penn State Anime Organization's student, alumni, and associate members since 2007, Setsucon has been bringing anime, manga, and Japanese culture to the winter months in Central Pennsylvania. After a year of planning, Setsucon debuted as a one-day event with 288 people filling the halls of the Days Inn Penn State. Since then, we have expanded to more than 2,250 attendees, moved 45 minutes southwest to Altoona, and have expanded to include all things anime and Japanese culture.

Since the beginning, the focus has been on three pillars: Anime, Cosplay, Gaming. We hold events, such as fan and voice actor panels, viewings, a Masquerade, an Iron Cosplay, a Gaming Gauntlet, various charitable programs, & much more to help make the weekend as exciting as possible for any type of fan. With both a family-friendly atmosphere and big con amenities, Setsucon has become the premier location to celebrate anime and Japanese culture during the chilly winter.

Setsucon is a proud member of the International Otaku Expo Association (IOEA).

## OUR MISSION

Setsucon strives to bring a safe and inclusive social environment to anime and manga fans of all ages across Central Pennsylvania and beyond. We aim to bring the big con feel to a more intimate and affordable convention.

## ABOUT SETSUCON

While planning our first Setsucon, we discussed several names. Our original name was to be "Daikon" like the radish and also "dai" for big. It was decided that this might be confusing as there was a "Daicon" held in Japan previously. Our next just was "Setsucon." Setsu comes from the Chinese reading (on'yomi) of the Japanese word for "snow", yuki. Since the convention is held during the winter months, where snow is not uncommon, we felt the name was fitting.
